## CAUTIONARY RESPONSE INFORMATION

<b>Common Synonyms</b> Benzene, diisopropyl Cumene bottoms DIPB bis-(1-Methylethyl)-benzene	Liquid	Clear amber	Sharp penetrating and aromatic
Keep people away. Avoid contact with liquid and vapor. Avoid inhalation. Wear goggles, self-contained breathing apparatus, and rubber overclothing (including gloves). Shut off ignition sources and call fire department. Stay upwind and use water spray to "knock down" vapor. Notify local health and pollution control agencies. Protect water intakes.			
<b>Fire</b>	Combustible. Water may be ineffective on fire. Wear goggles, self-contained breathing apparatus, and rubber overclothing (including gloves). Extinguish with dry chemical, alcohol foam, or CO <sub>2</sub> . Cool exposed containers with water.		
<b>Exposure</b>	CALL FOR MEDICAL AID.  VAPOR Irritating to eyes, nose and throat. If inhaled, will cause dizziness or difficult breathing. Move to fresh air. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen.  LIQUID Will burn skin and eyes. Harmful if swallowed. Remove contaminated clothing and shoes. Flush affected areas with plenty of water. IF IN EYES, hold eyelids open and flush with plenty of water. IF SWALLOWED, DO NOT INDUCE VOMITING.		
<b>Water Pollution</b>	Effect of low concentrations on aquatic life is not known. Fouling to shoreline. May be dangerous if it enters water intakes. Notify local health and wildlife officials. Notify operators of nearby water intakes.

### Common Synonyms

Liquefied compressed gas      Colorless      Dead fish or ammonia odor

Floats and boils on water. flammable, irritating vapor is produced.  
Boiling point is 44°F.

Evacuate.  
Keep people away. Avoid contact with liquid and vapor.  
Wear goggles, self-contained breathing apparatus, and rubber overclothing (including gloves).  
Shut off ignition sources and call fire department.  
Stay upwind and use water spray to "knock down" vapor.  
Notify local health and pollution control agencies.

### Fire

FLAMMABLE.  
Flashback along vapor trail may occur.  
May explode if ignited in an enclosed area.  
Wear goggles, self-contained breathing apparatus, and rubber overclothing (including gloves).  
Stop flow of gas if possible.  
Cool exposed containers and protect men effecting shutoff with water.  
Let fire burn.

### Exposure

CALL FOR MEDICAL AID.  
  
VAPOR  
Irritating to eyes, nose and throat.  
If inhaled, will cause difficult breathing.  
Move to fresh air.  
If breathing has stopped, give artificial respiration.  
If breathing is difficult, give oxygen.

LIQUID  
Will burn skin and eyes.  
Harmful if swallowed.  
Remove contaminated clothing and shoes.  
Flush affected areas with plenty of water.  
IF IN EYES, hold eyelids open and flush with plenty of water.  
IF SWALLOWED, and victim is CONSCIOUS, have victim drink water or milk.

### Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS.

## CAUTIONARY RESPONSE INFORMATION

<b>Common Synonyms</b> Deanol 2-(Dimethylamino)ethanol B-Dimethylaminoethyl alcohol N,N-Dimethyl-n-(2-hydroxyethyl) amine	Liquid  Colorless  Amine odor  Floats and mixes with water.
<b>KEEP PEOPLE AWAY. AVOID CONTACT WITH LIQUID AND VAPOR.</b> Wear self-contained positive pressure breathing apparatus and full protective clothing. Shut off ignition sources and call fire department. Stay upwind and use water spray to "knock down" vapor. Notify local health and pollution control agencies. Protect water intakes.	
<b>Fire</b>	Combustible. POISONOUS GASES ARE PRODUCED IN FIRE. Wear self-contained positive pressure breathing apparatus and full protective clothing. Containers may explode in fire. Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area. Extinguish small fires: dry chemical, CO <sub>2</sub> , water spray or foam; large fires: water spray, fog or foam. Cool exposed containers with water.
<b>Exposure</b>	CALL FOR MEDICAL AID.  VAPOR Irritating to eyes, nose and throat. Harmful if inhaled. Move to fresh air. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen.  LIQUID Will burn skin and eyes. Harmful if swallowed. IF IN EYES OR ON SKIN, flush with plenty of water for at least 15 minutes. Remove and isolate contaminated clothing and shoes at the site. IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk. DO NOT INDUCE VOMITING.
<b>Water Pollution</b>	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS. May be dangerous if it enters water intakes. Notify local health and wildlife officials. Notify operators of nearby water intakes.

## CAUTIONARY RESPONSE INFORMATION

<b>Common Synonyms</b> Dimazine unsym-Dimethylhydrazine UDMH	Watery liquid  Colorless  Fishy or ammonia-like odor  Floats and mixes with water.
<b>Fire</b> Keep people away. <b>AVOID CONTACT WITH LIQUID AND VAPOR.</b> Avoid inhalation. Wear chemical protective suit with self-contained breathing apparatus. Shut off ignition sources and call fire department. Stay upwind and use water spray to "knock down" vapor. Evacuate area in case of large discharge. Notify local health and pollution control agencies. Protect water intakes.	
<b>Fire</b>	FLAMMABLE. POISONOUS GASES ARE PRODUCED WHEN HEATED. Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area. Wear chemical protective suit with self-contained breathing apparatus. Flood discharge area with water. Extinguish with water.
<b>Exposure</b>	CALL FOR MEDICAL AID.  VAPOR POISONOUS IF INHALED OR IF SKIN IS EXPOSED. Irritating to eyes. Move to fresh air. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen.  LIQUID POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED. Will burn eyes. Remove contaminated clothing and shoes. Flush affected areas with plenty of water. IF IN EYES, hold eyelids open and flush with plenty of water. IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk. DO NOT INDUCE VOMITING.

## CAUTIONARY RESPONSE INFORMATION

<b>Common Synonyms</b> sym-Dimethylhydrazine SDMH	Watery liquid	Colorless	Fishy or ammonia-like odor
Floats and mixes with water.			
<b>Keep people away. AVOID CONTACT WITH LIQUID AND VAPOR.</b> Avoid inhalation. Wear chemical protective suit with self-contained breathing apparatus. Shut off ignition sources and call fire department. Stay upwind and use water spray to "knock down" vapor. Evacuate area in case of large discharge. Notify local health and pollution control agencies. Protect water intakes.			
<b>Fire</b>	FLAMMABLE POISONOUS GASES ARE PRODUCED WHEN HEATED. Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area. Wear chemical protective suit with self-contained breathing apparatus. Flood discharge area with water. Extinguish with water		
<b>Exposure</b>	CALL FOR MEDICAL AID.  VAPOR POISONOUS IF INHALED OR IF SKIN IS EXPOSED. Irritating to eyes. Move to fresh air. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen.  LIQUID POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED. Will burn eyes. Remove contaminated clothing and shoes. Flush affected areas with plenty of water. IF IN EYES, hold eyelids open and flush with plenty of water. IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk. DO NOT INDUCE VOMITING.		
<b>Water Pollution</b>	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes. Notify local health and wildlife officials Notify operators of nearby water intakes.

DMN

## CAUTIONARY RESPONSE INFORMATION

<b>Common Synonyms</b> Aniline, 2,6-diethyl Benzeneamine, 2,6-diethyl- (9ci)		Liquid	Colorless
		Floats, sparingly soluble in water	
Shut off ignition sources and call fire department. Avoid contact with liquid. Keep people away. Notify local health and pollution control agencies. Protect water intakes.			
<b>Fire</b>	Combustible. POISONOUS GASES MAY BE PRODUCED IN FIRE. Water may be ineffective on fire. Wear full-face self-contained breathing apparatus and full protective clothing including rubber boots and heavy rubber gloves. Extinguish with dry chemical, alcohol foam or CO <sub>2</sub> . Cool exposed containers with water.		
<b>Exposure</b>	CALL FOR MEDICAL AID.  VAPOR/MIST Poisonous if inhaled. Irritating to eyes, nose and throat. Move the victim to fresh air. IF IN EYES, hold eyes open and flush with plenty of water. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen.  LIQUID Irritating to skin and eyes. If swallowed will cause nausea, dizziness, and headaches. Remove contaminated clothing and shoes. Flush affected areas with plenty of water. IF IN EYES, hold eyelids open and flush with plenty of water.		
<b>Water Pollution</b>	Effect of low concentrations on aquatic life is unknown. Fouling to shoreline. May be dangerous if it enters water intakes. Notify local health and wildlife officials. Notify operators of nearby water intakes.

### 3. HEALTH HAZARDS

- 3.1 **Personal Protective Equipment:** Self-contained breathing apparatus, rubber boots, heavy rubber gloves and protective clothing.
- 3.2 **Symptoms Following Exposure:** May be fatal if inhaled, swallowed or absorbed through the skin. Vapor or mist is irritant to the eyes, mucous membranes, upper respiratory tract; causes skin irritation. Absorption into the body leads to the formation of methemoglobin which, in sufficient concentration, may cause cyanosis. Onset may be delayed 2-4 hours or longer. Exposure can cause nausea, dizziness, headache, damage to the eyes, and blood effects.
- 3.3 **Treatment of Exposure:** INHALATION: Call for medical help. Remove the victim to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. EYES: Immediately flush with copious amounts of water for 15 minutes. Assure adequate flushing of the eyes by separating the eyelids with fingers. SKIN: Immediately flush with copious amounts of water for 15 minutes.

## CAUTIONARY RESPONSE INFORMATION

<b>Common Synonyms</b> D-D soil fumigant 1,3-Dichloropropene and 1,2-Dichloropropane Dowfume N Telone Vidden D	Liquid  Straw to amber  Pungent, garlic-like  Sinks and slowly mixes with water.
<b>KEEP PEOPLE AWAY. AVOID CONTACT WITH LIQUID AND VAPOR.</b> Avoid inhalation. Wear self-contained positive pressure breathing apparatus and chemical protective suit. Shut off ignition sources. Call fire department. Evacuate area. Stay upwind and use water spray to "knock down" vapor. Notify local health and pollution control agencies. Protect water intakes.	
<b>Fire</b>	FLAMMABLE. POISONOUS GASES ARE PRODUCED IN FIRE. Containers may explode in fire. Vapor may explode indoors, outdoors or in sewers. Flashback along vapor trail may occur. Extinguish small fires: dry chemical, CO <sub>2</sub> , water spray or foam; large fires: water spray, fog or foam. Cool exposed containers with water. Combat fires from safe distances or protected location.
<b>Exposure</b>	CALL FOR MEDICAL AID.  VAPOR Irritating to eyes, respiratory tract, skin and digestive tract. Inhalation will cause gasping, refusal to breathe, and respiratory distress; may be fatal. Move victim to fresh air. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen.  LIQUID May be fatal if swallowed or absorbed through skin. Will burn exposed tissues. IF IN EYES, hold eyelids open and flush with water for 15 minutes. IF ON SKIN, flush with water for 15 minutes; wash with soap and water. Remove and isolate contaminated clothing and shoes at the site. IF SWALLOWED and victim is CONSCIOUS, have victim drink water and induce vomiting. IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.
<b>Water Pollution</b>	Dangerous to aquatic life in high concentrations. May be dangerous if it enters water intakes. Notify local health and wildlife officials Notify operators of nearby water intakes.

## CAUTIONARY RESPONSE INFORMATION

<b>Common Synonyms</b> Methylzinc Zinc dimethyl Zinc methyl		Liquid	Colorless
		IGNITES WHEN EXPOSED TO AIR. Reacts violently with water and produces flammable vapor.	
Evacuate. KEEP PEOPLE AWAY. AVOID CONTACT WITH LIQUID AND VAPOR. Avoid inhalation. Wear rubber overclothing (including gloves). Shut off ignition sources and call fire department. Notify local health and pollution control agencies.			
<b>Fire</b>	IGNITES WHEN EXPOSED TO AIR. Irritating gases are produced when heated. Extinguish with dry graphite, soda ash, or other inert powder. DO NOT USE WATER, FOAM, CARBON DIOXIDE, DRY CHEMICALS OR VAPORIZING LIQUIDS ON FIRE. DO NOT USE WATER ON ADJACENT FIRES.		
<b>Exposure</b>	Call for medical aid.  VAPOR OR MIST Irritating to eyes, nose and throat. If inhaled will cause headache, nausea, vomiting or difficult breathing. Move victim to fresh air. If in eyes, hold eyelids open and flush with plenty of water. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen.  LIQUID Will burn skin and eyes. If swallowed will cause nausea, or vomiting. Remove contaminated clothing and shoes. Flush affected areas with plenty of water. IF IN EYES, hold eyelids open and flush with plenty of water. IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk. DO NOT INDUCE VOMITING.		
<b>Water Pollution</b>	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes. Notify local health and wildlife officials. Notify operators of nearby water intakes.

<b>3. HEALTH HAZARDS</b>  3.1 <b>Personal Protective Equipment:</b> Cartridge-type or fresh air mask for fumes or smoke; PVC fire-retardant or asbestos gloves; full face shield, safety glasses, or goggles; fire-retardant coveralls as standard wear; for special cases, use asbestos coat or rain suit. 3.2 <b>Symptoms Following Exposure:</b> Inhalation of mist or vapor causes immediate irritation of upper respiratory tract. Excessive or prolonged inhalation of fumes from ignition or decomposition may cause "metal fume fever" (sore throat, headache, fever, chills, nausea, vomiting, muscular aches, perspiration, constricting sensation in lungs, weakness, sometimes prostration). Symptoms usually last 12-24 hrs. Eyes are immediately and severely irritated by liquid, vapor, or dilute solutions. If not removed by thorough flushing with water, chemical may permanently damage cornea. Skin will undergo thermal and acid burns when chemical reacts with moisture in skin. Unless washed quickly, skin may be scarred. Treat dilute solutions with same precautions as concentrated liquid. Ingestion, while unlikely, would cause immediate burns at site of contact. Nausea, vomiting, cramps, and diarrhea may follow. Tissues may ulcerate if not treated. 3.3 <b>Treatment of Exposure:</b> INHALATION: highly unlikely, as liquid or vapor either ignites spontaneously or reacts with moisture to form methane and zinc oxide. Move victim to clean air and administer mouth-to-mouth resuscitation if breathing has ceased; give oxygen only when authorized by physician; keep victim warm and comfortable; call physician immediately. EYES: immediately flush with large amounts of water for at least 15 min., holding eyelids apart to insure thorough irrigation; use oils or ointments only when directed by physician, and do not attempt to neutralize with chemicals; get medical attention as soon as possible. SKIN: immediately flush affected area with large volumes of water; do not attempt to neutralize with chemicals; get medical attention if irritation persists. INGESTION: highly unlikely, as liquid or vapor either ignites spontaneously or reacts with moisture to form methane and zinc oxide. Do NOT induce vomiting; immediately dilute material by giving large amounts of water or milk; if vomiting occurs, give more fluids; when vomiting ceases, milk or olive oil may be given for their soothing effect; get medical attention.  3.4 <b>TLV-TWA:</b> Not listed. 3.5 <b>TLV-STEL:</b> Not listed. 3.6 <b>TLV-Ceiling:</b> Not listed. 3.7 <b>Toxicity by Ingestion:</b> Not pertinent 3.8 <b>Toxicity by Inhalation:</b> Currently not available. 3.9 <b>Chronic Toxicity:</b> Not pertinent 3.10 <b>Vapor (Gas) Irritant Characteristics:</b> Currently not available 3.11 <b>Liquid or Solid Characteristics:</b> Currently not available 3.12 <b>Odor Threshold:</b> Currently not available 3.13 <b>IDLH Value:</b> Not listed. 3.14 <b>OSHA PEL-TWA:</b> Not listed. 3.15 <b>OSHA PEL-STEL:</b> Not listed. 3.16 <b>OSHA PEL-Ceiling:</b> Not listed. 3.17 <b>EPA AEGL:</b> Not listed

HEALTH HAZARDS</b> 3.1 <b>Personal Protective Equipment:</b> Dust mask; goggles or face shield; protective clothing; rubber gloves 3.2 <b>Symptoms Following Exposure:</b> Very high fever is prominent sign of intoxication following absorption of a toxic dose of dinitro-o-cresol. Inhalation of dust may cause same symptoms as ingestion. Ingestion causes a feeling of well-being, profuse sweating, yellow urine, increased basal metabolism, marked thirst, vomiting, convulsions, coma, and death. Contact with eyes causes irritation. Contact with skin causes local necrosis and dangerous systemic effects. Note: Some authorities recommend that all exposed workers have blood tests regularly to determine the level of this substance. Further contact should be avoided if the level exceeds 20 micrograms per gram. 3.3 <b>Treatment of Exposure:</b> INHALATION: apply ice packs to promote heat loss; replace fluids and electrolytes; allay anxiety. ## CAUTIONARY RESPONSE INFORMATION

<b>Common Synonyms</b> Di(ethylene oxide) Dioxane p-Dioxane	Liquid  Colorless  Slight alcohol odor  Sinks and mixes with water. Flammable, irritating vapor is produced. Freezing point is 53°F.
<b>Keep people away. Avoid contact with liquid and vapor.</b> <b>Avoid inhalation.</b> <b>Wear goggles, self-contained breathing apparatus, and rubber overclothing (including gloves).</b> <b>Shut off ignition sources and call fire department.</b> <b>Stay upwind and use water spray to "knock down" vapor.</b> <b>Notify local health and pollution control agencies.</b> <b>Protect water intakes.</b>	
<b>Fire</b>	<b>FLAMMABLE.</b> Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area. Wear goggles, self-contained breathing apparatus, and rubber overclothing (including gloves). Extinguish with dry chemical, alcohol foam or carbon dioxide. Water may be ineffective on fire. Cool exposed containers with water.
<b>Exposure</b>	<b>CALL FOR MEDICAL AID.</b>  <b>VAPOR</b> Irritating to eyes, nose and throat. Harmful if inhaled. Move to fresh air. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen.  <b>LIQUID</b> Irritating to skin and eyes. Harmful if swallowed. Remove contaminated clothing and shoes. Flush affected areas with plenty of water. IF IN EYES, hold eyelids open and flush with plenty of water. IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk, have victim induce vomiting. IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.
<b>Water Pollution</b>	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes. Notify local health and wildlife officials. Notify operators of nearby water intakes.

## CAUTIONARY RESPONSE INFORMATION

<b>Common Synonyms</b> Propane, 1,1-dichloro- Propylene chloride	Watery liquid Colorless Sweet odor
Sinks in water. Flammable, irritating vapor is produced.	
Keep people away. Avoid inhalation. Shut off ignition sources and call fire department. Stay upwind and use water spray to "knock down" vapor. Avoid contact with liquid and vapor. Notify local health and pollution control agencies. Protect water intakes.	
<b>Fire</b>	FLAMMABLE. POISONOUS GASES ARE PRODUCED IN FIRE. Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area. Wear goggles and self-contained breathing apparatus. Extinguish with foam, dry chemical, or carbon dioxide. Cool exposed containers with water.
<b>Exposure</b>	CALL FOR MEDICAL AID.  VAPOR Irritating to eyes, nose and throat. Move to fresh air. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen.  LIQUID Irritating to skin and eyes. Harmful if swallowed. Remove contaminated clothing and shoes. Flush affected areas with plenty of water. IF IN EYES, hold eyelids open and flush with plenty of water. IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
<b>Water Pollution</b>	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes. Notify local health and wildlife officials. Notify operators of nearby water intakes.

## CAUTIONARY RESPONSE INFORMATION

<b>Common Synonyms</b> Trimethylene chloride Trimethylene dichloride	Watery liquid	Colorless	Sweet odor
Sinks in water. Flammable, irritating vapor is produced.			
<b>Keep people away.</b> <b>Avoid inhalation.</b> <b>Shut off ignition sources and call fire department.</b> <b>Stay upwind and use water spray to "knock down" vapor.</b> <b>Avoid contact with liquid and vapor.</b> <b>Notify local health and pollution control agencies.</b> <b>Protect water intakes.</b>			
<b>Fire</b>	FLAMMABLE. POISONOUS GASES ARE PRODUCED IN FIRE. Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area. Wear goggles and self-contained breathing apparatus. Extinguish with foam, dry chemical, or carbon dioxide. Cool exposed containers with water.		
<b>Exposure</b>	CALL FOR MEDICAL AID.  VAPOR Irritating to eyes, nose and throat. Move to fresh air. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen.  LIQUID Irritating to skin and eyes. Harmful if swallowed. Remove contaminated clothing and shoes. Flush affected areas with plenty of water. IF IN EYES, hold eyelids open and flush with plenty of water. IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.		
<b>Water Pollution</b>	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes. Notify local health and wildlife officials. Notify operators of nearby water intakes.

## CAUTIONARY RESPONSE INFORMATION

<b>Common Synonyms</b> 2-Chloroallyl chloride 2,3-Dichloro-1-propane 2,3-Dichloropropylene	Liquid  Colorless to yellow  Chloroform  Sinks in water. Flammable, irritating vapor is produced.
Keep people away. Avoid contact with liquid and vapor. Avoid inhalation. Wear goggles, self-contained breathing apparatus and rubber overclothing (including gloves). Shut off ignition sources and call fire department. Notify local health and pollution control agencies. Protect water intakes.	
<b>Fire</b>	FLAMMABLE. POISONOUS GASES ARE PRODUCED IN FIRE. Wear goggles and self-contained breathing apparatus. Extinguish with water, dry chemical, foam or carbon dioxide. Cool exposed containers with water.
<b>Exposure</b>	CALL FOR MEDICAL AID.  VAPOR. Irritating to eyes, nose and throat. Move to fresh air. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen.  LIQUID. Will burn skin and eyes. Harmful if swallowed. Remove contaminated clothing and shoes. Flush affected areas with plenty of water. IF IN EYES, hold eyelids open and flush with plenty of water. IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk and have victim induce vomiting. IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing, except keep victim warm.
<b>Water Pollution</b>	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS. May be dangerous if it enters water intakes. Notify local health and wildlife officials. Notify operators of nearby water intakes.

## CAUTIONARY RESPONSE INFORMATION

<b>Common Synonyms</b> Dichloropropane Propylene dichloride	Watery liquid Colorless Sweet odor
Sinks in water. Flammable, irritating vapor is produced.	
Keep people away. Avoid inhalation. Shut off ignition sources and call fire department. Stay upwind and use water spray to "knock down" vapor. Avoid contact with liquid and vapor. Notify local health and pollution control agencies. Protect water intakes.	
<b>Fire</b>	FLAMMABLE. POISONOUS GASES ARE PRODUCED IN FIRE. Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area. Wear goggles and self-contained breathing apparatus. Extinguish with foam, dry chemical, or carbon dioxide. Cool exposed containers with water.
<b>Exposure</b>	CALL FOR MEDICAL AID.  VAPOR Irritating to eyes, nose and throat. Move to fresh air. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen.  LIQUID Irritating to skin and eyes. Harmful if swallowed. Remove contaminated clothing and shoes. Flush affected areas with plenty of water. IF IN EYES, hold eyelids open and flush with plenty of water. IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
<b>Water Pollution</b>	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes. Notify local health and wildlife officials. Notify operators of nearby water intakes.

## CAUTIONARY RESPONSE INFORMATION

<b>Common Synonyms</b> Dichloropropene Telone	Liquid  Colorless  Sweet odor  Sinks in water. Flammable, irritating vapor is produced.
<b>Keep people away. Avoid contact with liquid and vapor. Avoid inhalation. Wear rubber overclothing (including gloves). Shut off ignition sources and call fire department. Notify local health and pollution control agencies. Protect water intakes.</b>	
<b>Fire</b>	FLAMMABLE POISONOUS GASES ARE PRODUCED IN FIRE. Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area. WEAR GOGGLES AND SELF-CONTAINED BREATHING APPARATUS. Extinguish with water, dry chemical, foam, or carbon dioxide. Cool exposed containers with water.
<b>Exposure</b>	CALL FOR MEDICAL AID.  VAPOR Irritating to eyes, nose and throat. Move to fresh air. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen.  LIQUID Will burn skin and eyes. Harmful if swallowed. Remove contaminated clothing and shoes. Flush affected areas with plenty of water. IF IN EYES, hold eyelids open and flush with plenty of water. IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk and have victim induce vomiting. IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing, except keep victim warm.
<b>Water Pollution</b>	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes. Notify local health and wildlife officials. Notify operators of nearby water intakes.

## CAUTIONARY RESPONSE INFORMATION

<b>Common Synonyms</b> DMS Methanethiomethane Methyl sulfide 2-Thiapropene	Liquid  Colorless to light yellow  Unpleasant odor  Floats and mixes slowly with water. Irritating vapor is produced. Boiling point is 99°F.
<b>Keep people away.</b> <b>Avoid inhalation.</b> <b>Shut off ignition sources. Call fire department.</b> <b>Evacuate area in case of large discharge.</b> <b>Notify local health and pollution control agencies.</b> <b>Protect water intakes.</b>	
<b>Fire</b>	FLAMMABLE. POISONOUS GASES ARE PRODUCED IN FIRE. Containers may explode in fire. Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area. Wear goggles and self-contained breathing apparatus. Extinguish with dry chemicals, alcohol foam, or carbon dioxide. Water may be ineffective on fire. Cool exposed containers with water.
<b>Exposure</b>	Call for medical aid.  VAPOR Irritating to eyes, nose and throat. Move victim to fresh air.  LIQUID Irritating to skin and eyes. Harmful if swallowed. Remove contaminated clothing and shoes. Flush affected areas with plenty of water. IF IN EYES, hold eyelids open and flush with plenty of water. IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk and have victim induce vomiting. IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.
<b>Water Pollution</b>	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes. Notify local health and wildlife officials. Notify operators of nearby water intakes.

### 3. HEALTH HAZARDS

- 3.1 **Personal Protective Equipment:** Respirator with organic vapor canister; rubber or plastic gloves; goggles or face shield.
- 3.2 **Symptoms Following Exposure:** Inhalation causes moderate irritation of upper respiratory system. Contact of liquid with eyes causes moderate irritation. Repeated contact with skin may extract oils and result in irritation. Ingestion causes nausea and irritation of mouth and stomach.
- 3.3 **Treatment of Exposure:** INHALATION: move victim to fresh air at once; enforce rest, and keep warm; get medical attention immediately. EYES: flush with water for at least 15 min.; if irritation persists, get medical attention. SKIN: flush with plenty of water and wash thoroughly; get treatment for any lasting irritation. INGESTION: if large amounts are swallowed, induce vomiting by tickling the back of the throat with the finger or by giving an emetic such as two tablespoons of common salt in a glass of warm water; get medical attention.

## CAUTIONARY RESPONSE INFORMATION

<b>Common Synonyms</b> Petroleum distillate Straight run gasoline	Watery liquid Colorless Gasoline-like odor  Floats on water. Flammable, irritating vapor is produced.
Evacuate. Keep people away. Avoid inhalation. Shut off ignition sources and call fire department. Avoid contact with liquid and vapor. Stay upwind and use water spray to "knock down" vapor. Notify local health and pollution control agencies. Protect water intakes.	
<b>Fire</b>	FLAMMABLE. Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area. Extinguish with foam or dry chemicals. Water may be ineffective on fire. Cool exposed containers with water.
<b>Exposure</b>	CALL FOR MEDICAL AID.  VAPOR Irritating to eyes, nose and throat. Move to fresh air. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen.  LIQUIDS Irritating to eyes. Harmful if swallowed. Remove contaminated clothing and shoes. Flush affected areas with plenty of water. IF IN EYES, hold eyelids open and flush with plenty of water. IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk. DO NOT INDUCE VOMITING.
<b>Water Pollution</b>	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS. Fouling to shoreline. May be dangerous if it enters water intakes. Notify local health and wildlife officials. Notify operators of nearby water intakes.

# DIETHYL SULFATE

DSU

## CAUTIONARY RESPONSE INFORMATION

<b>Common Synonyms</b> Diethyl sulphate Ethyl sulfate Sulfuric acid, diethyl ester	Liquid  Colorless  Ethereal, peppermint odor  Sinks and very slowly dissolves in water. Gradually decomposes to produce sulfuric acid.
<b>KEEP PEOPLE AWAY. AVOID CONTACT WITH LIQUID AND VAPOR.</b> Avoid inhalation. Wear positive pressure breathing apparatus and special protective clothing. Call fire department. Notify local health and pollution control agencies. Protect water intakes.	
<b>Fire</b>	Combustible POISONOUS GASES ARE PRODUCED IN FIRE OR WHEN HEATED. Vapor may explode if ignited in an enclosed area. May cause fire on contact with a combustible material. Wear positive pressure breathing apparatus and special protective clothing. Combat fire from safe distance or protected area. Extinguish small fire: dry chemicals, CO <sub>2</sub> , water spray or foam; large fire: water spray, fog or foam. Cool exposed containers with water.
<b>Exposure</b>	CALL FOR MEDICAL AID.  VAPOR POISONOUS IF INHALED. Irritating to eyes, skin and mucous membranes. Move to fresh air. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen.  LIQUID POISONOUS IF SWALLOWED. Will burn skin and eyes. Remove contaminated clothing and shoes. Flush contaminated areas with plenty of running water. IF IN EYES: hold eyelids open and flush with running water for at least 15 minutes. IF ON SKIN: Wash with soap and plenty of running water; speed in removing material from skin is of extreme importance. Remove and isolate contaminated clothing and shoes at the site. IF SWALLOWED: and victim is CONSCIOUS, give two glasses of water and induce vomiting. IF SWALLOWED: and victim is UNCONSCIOUS, do nothing but keep victim warm.
<b>Water Pollution</b>	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS. May be dangerous if it enters water intakes. Notify local health and wildlife officials. Notify operators of nearby water intakes.

## CAUTIONARY RESPONSE INFORMATION

<b>Common Synonyms</b> Acrylic acid, ethyl ester Ethyl 2-propenoate	Liquid                      Colorless                      Fruity odor  Floats on water. Flammable, irritating vapor is produced.
Keep people away. Avoid contact with liquid and vapor. Avoid inhalation. Wear goggles, self-contained breathing apparatus, and rubber overclothing (including gloves). Shut off ignition sources and call fire department. Stay upwind and use water spray to "knock down" vapor. Notify local health and pollution control agencies. Protect water intakes.	
<b>Fire</b>	<b>FLAMMABLE.</b> Containers may explode in fire. Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area. Wear goggles, self-contained breathing apparatus, and rubber overclothing (including gloves). Combat fires from safe distance or protected location. Extinguish with dry chemical, foam, or carbon dioxide. Water may be ineffective on fire. Cool exposed containers with water.
<b>Exposure</b>	<b>CALL FOR MEDICAL AID.</b>  <b>VAPOR</b> Irritating to eyes, nose and throat. If inhaled, will cause headache or nausea. Move to fresh air. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen.  <b>LIQUID</b> Will burn skin and eyes. Harmful if swallowed. Remove contaminated clothing and shoes. Flush affected areas with plenty of water. IF IN EYES, hold eyelids open and flush with plenty of water. IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
<b>Water Pollution</b>	Effect of low concentrations on aquatic life is unknown. Fouling to shoreline. May be dangerous if it enters water intakes. Notify local health and wildlife officials. Notify operators of nearby water intakes.

## CAUTIONARY RESPONSE INFORMATION

<b>Common Synonyms</b> Acrylic acid, 2-ethylhexylester 2-Ethylhexyl-2-propenoate		Liquid	Colorless	Sharp odor
		Floats on water.		
Keep people away. Avoid inhalation. Call fire department. Notify local health and pollution control agencies. Protect water intakes.				
<b>Fire</b>	Combustible. Containers may explode in fire. Combat fires from safe distance or protected location. Extinguish with dry chemicals or carbon dioxide. Water may be ineffective on fire. Cool exposed containers with water.			
<b>Exposure</b>	Call for medical aid.  LIQUID Irritating to skin and eyes. Harmful if swallowed. Remove contaminated clothing and shoes. Flush affected areas with plenty of water. IF IN EYES, hold eyelids open and flush with plenty of water. IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk and have victim induce vomiting. IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.			
<b>Water Pollution</b>	Effect of low concentrations on aquatic life is unknown. Fouling to shoreline. May be dangerous if it enters water intakes. Notify local health and wildlife officials. Notify operators or nearby water intakes.

# ETHYL CHLOROFORMATE

ECF

## CAUTIONARY RESPONSE INFORMATION

<b>Common Synonyms</b> Chloroformic acid, ethyl ester Ethyl chlorocarbonate	Liquid  Colorless to light yellow  Irritating odor  Reacts slowly with water. Irritating vapor is produced.
<b>KEEP PEOPLE AWAY. AVOID CONTACT WITH LIQUID AND VAPOR.</b> Avoid inhalation. Wear goggles, self-contained breathing apparatus, and rubber overclothing (including gloves). Shut off ignition sources. Call fire department. Evacuate area in case of large discharge. Stay upwind. Use water spray to "knock down" vapor. Notify local health and pollution control agencies. Protect water intakes.	
<b>Fire</b>	FLAMMABLE. POISONOUS GASES MAY BE PRODUCED IN FIRE. Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area. Wear goggles, self-contained breathing apparatus and rubber overclothing (including gloves). Extinguish with dry chemicals or carbon dioxide. Cool exposed containers with water.
<b>Exposure</b>	CALL FOR MEDICAL AID.  VAPOR POISONOUS IF INHALED OR IF SKIN IS EXPOSED. Irritating to eyes, nose and throat. Move victim to fresh air. If in eyes, hold eyelids open and flush with plenty of water. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen.  LIQUID POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED. Remove contaminated clothing and shoes. Flush affected areas with plenty of water. IF IN EYES, hold eyelids open and flush with plenty of water. IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk. DO NOT INDUCE VOMITING.
<b>Water Pollution</b>	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes. Notify local health and wildlife officials. Notify operators of nearby water intakes.

## CAUTIONARY RESPONSE INFORMATION

<b>Common Synonyms</b> Chloroethane Ether, hydrochloric Monochlorethane	Liquid                      Colorless                      Pleasant odor  Floats and may boil on water. Flammable, irritating vapor is produced. Boiling point is 54°F.
Evacuate. Keep people away. Avoid inhalation. Shut off ignition sources and call fire department. Avoid contact with liquid. Stay upwind and use water spray to "knock down" vapor. Notify local health and pollution control agencies. Protect water intakes.	
<b>Fire</b>	<b>FLAMMABLE.</b> Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area. Wear goggles and self-contained breathing apparatus. Stop flow of gas or liquid if possible. Cool exposed containers and men effecting shutoff with water. Let fire burn.
<b>Exposure</b>	<b>CALL FOR MEDICAL AID.</b>  <b>VAPOR</b> Irritating to eyes, nose and throat. If inhaled, will cause dizziness or loss of consciousness. Move to fresh air. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen.  <b>LIQUID</b> Irritating to skin and eyes. Will cause frostbite. Flush affected areas with plenty of water. IF IN EYES, hold eyelids open and flush with plenty of water. DO NOT RUB AFFECTED AREAS.
<b>Water Pollution</b>	Not harmful to aquatic life. May be dangerous if it enters water intakes. Notify operators of nearby water intakes.

## CAUTIONARY RESPONSE INFORMATION

<b>Common Synonyms</b> Brocide 1,2-Dichloroethane Dutch liquid EDC Ethylene chloride Glycol dichloride	Liquid  Colorless  Sweet odor  Sinks in water. Flammable, irritating vapor is produced.
<b>Keep people away. Avoid contact with liquid and vapor. Avoid inhalation. Wear goggles, self-contained breathing apparatus, and rubber overclothing (including gloves). Shut off ignition sources and call fire department. Stay upwind and use water spray to "knock down" vapor. Notify local health and pollution control agencies. Protect water intakes.</b>	
<b>Fire</b>	FLAMMABLE. POISONOUS GASES ARE PRODUCED IN FIRE. Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area. Wear goggles, self-contained breathing apparatus, and rubber overclothing (including gloves). Extinguish with dry chemical, foam, or carbon dioxide. Water may be ineffective on fire. Cool exposed containers with water.
<b>Exposure</b>	CALL FOR MEDICAL AID.  VAPOR Irritating to eyes, nose and throat. If inhaled, will cause nausea, dizziness or difficult breathing. Move to fresh air. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen.  LIQUID Will burn skin and eyes. Harmful if swallowed. Remove contaminated clothing and shoes. Flush affected areas with plenty of water. IF IN EYES, hold eyelids open and flush with plenty of water. IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk and have victim induce vomiting. IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.
<b>Water Pollution</b>	Dangerous to aquatic life in high concentrations. May be dangerous if it enters water intakes. Notify local health and wildlife officials. Notify operators of nearby water intakes.

## CAUTIONARY RESPONSE INFORMATION

<b>Common Synonyms</b> Hexadrin Mendrin		Solid or solution	Colorless to tan	Odorless
Sinks in water.				
<b>KEEP PEOPLE AWAY.</b> Avoid inhalation. <b>AVOID CONTACT WITH LIQUID, SOLID AND DUST.</b> Wear goggles, self-contained breathing apparatus, and rubber overclothing (including gloves). Call fire department. Notify local health and pollution control agencies. Protect water intakes.				
<b>Fire</b>	Combustible solution or non-flammable solid. POISONOUS GASES ARE PRODUCED IN FIRE. Extinguish with dry chemicals, foam or carbon dioxide. Water may be ineffective on fire.			
<b>Exposure</b>	CALL FOR MEDICAL AID. DUST POISONOUS IF INHALED OR IF SKIN IS EXPOSED. Irritating to eyes, nose and throat. Move victim to fresh air. If in eyes, hold eyelids open and flush with plenty of water. If breathing is difficult, give oxygen.  LIQUID OR SOLID POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED. Irritating to skin and eyes. Remove contaminated clothing and shoes. Flush affected areas with plenty of water. IF IN EYES, hold eyelids open and flush with plenty of water. IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk and have victim induce vomiting. IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.			
<b>Water Pollution</b>	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS. May be dangerous if it enters water intakes. Notify local health and wildlife officials. Notify operators of nearby water intakes.

## 3. HEALTH HAZARDS

- 3.1 **Personal Protective Equipment:** Respirator for spray, fog, or dust; rubber gloves and boots.
- 3.2 **Symptoms Following Exposure:** Inhalation causes moderate irritation of nose and throat; prolonged breathing may cause same toxic symptoms as for ingestion. Contact with liquid causes moderate irritation of eyes and skin. Prolonged contact with skin may cause same toxic symptoms as for ingestion. Ingestion causes frothing of the mouth, facial congestion, convulsions, violent muscular contractions, dizziness, weakness, nausea.
- 3.3 **Treatment of Exposure:** Get medical attention after all exposures to this compound. INHALATION: remove from exposure. EYES: flush with water for at least 15 min. SKIN: wash with plenty of soap and water, but do not scrub. INGESTION: remove from the gastrointestinal tract, either by inducing vomiting (unless hydrocarbon solvents are involved and the amount of insecticide is well below the toxic amount) or by gastric lavage with saline solution; saline cathartics may also be beneficial; fats and oils should be avoided; sedation with barbituates is indicated if signs of CNS irritation are present; patient should have absolute quiet, expert nursing care, and a minimum of external stimuli to reduce danger of convulsions; epinephrine is contraindicated in view of the danger of precipitating ventricular fibrillation; if material ingested was dissolved in a hydrocarbon solvent, observe patient for possible development of hydrocarbon pneumonitis.

## CAUTIONARY RESPONSE INFORMATION

<b>Common Synonyms</b> Ethoxy propionic acid, ethyl ester Ethyl beta-ethoxypropionate Propionic acid, 3-ethoxyethyl ester	Liquid  Floats on water.	Water-white  Esteric odor
Shut off ignition sources and call fire department. Avoid contact with liquid and vapor. Keep people away. Stay upwind. Use water spray to "knock down" vapor. Notify local health and pollution control agencies. Protect water intakes.		
<b>Fire</b>	Combustible. Containers may explode in fire. Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area. Water may be ineffective on fire. Extinguish with dry chemical, alcohol foam, or CO <sub>2</sub> . Cool exposed containers with water.	
<b>Exposure</b>	CALL FOR MEDICAL AID.  VAPOR Irritating to eyes, nose, throat. If inhaled will cause headache or dizziness. If in eyes, hold eyelids open and flush with plenty of water. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen.  LIQUID Irritating to skin and eyes. If swallowed will cause nausea, vomiting, dizziness or headache. Remove contaminated clothing and shoes. Flush affected areas with plenty of water. IF IN EYES, hold eyelids open and flush with plenty of water. IF SWALLOWED, DO NOT INDUCE VOMITING.	
<b>Water Pollution</b>	Effect of low concentrations on aquatic life is unknown. Fouling to shoreline. May be dangerous if it enters water intakes. Notify local health and wildlife officials. Notify operators of nearby water intakes.

<b>Common Synonyms</b> Ethyl formic ester Ethyl methanoate Formic acid, ethyl ester Formic ether	Liquid  Colorless  Pleasant odor  Floats and mixes with water. Flammable, irritating vapor is produced.
<b>Evacuate.</b> <b>Keep people away.</b> <b>Avoid inhalation.</b> <b>Shut off ignition sources. Call fire department.</b> <b>Stay upwind. Use water spray to "knock down" vapor.</b> <b>Notify local health and pollution control agencies.</b> <b>Protect water intakes.</b>	
<b>Fire</b>	FLAMMABLE: Containers may explode in fire. Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area. Extinguish with dry chemicals, alcohol foam, or carbon dioxide. Water may be ineffective on fire. Cool exposed containers with water.
<b>Exposure</b>	Call for medical aid.  VAPOR Irritating to eyes, nose and throat. If inhaled will cause difficult breathing. Move victim to fresh air. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen.  LIQUID Irritating to skin and eyes. Harmful if swallowed. Remove contaminated clothing and shoes. Flush affected areas with plenty of water. IF IN EYES, hold eyelids open and flush with plenty of water. IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
<b>Water Pollution</b>	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes. Notify local health and wildlife officials. Notify operators of nearby water intakes.

Ingestion causes irritation of mouth and stomach; may cause deep narcosis and death if not treated.
- 3.3 **Treatment of Exposure:** INHALATION: remove from exposure; begin artificial respiration if breathing has stopped; call physician. EYES: wash with water for 15 min.; call physician if needed. SKIN: wash with water for 15 min.; call physician if irritation persists. INGESTION: do NOT induce vomiting; get medical attention at once.

### 3. HEALTH HAZARDS

- 3.1 **Personal Protective Equipment:** Impervious clothing and gloves should be used to prevent skin contact. Where splashing is possible wear full face shield or chemical safety goggles. Use approved respirator to protect against vapors.
- 3.2 **Symptoms Following Exposure:** May cause irritation if splashed into eyes. Can be absorbed through the skin. Swallowing a large single dose or absorbing large amount through skin could result in death. It is unlikely that air levels of the compound would be dangerous unless it is heated.
- 3.3 **Treatment of Exposure:** Get medical attention. INHALATION: Remove to fresh air. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen. EYES: Flush with water for at least 15 min., lifting lids occasionally. Contact lenses should not be worn when working with this chemical. SKIN: Remove contaminated clothing and shoes. Flush with water. INGESTION: Induce vomiting.

## CAUTIONARY RESPONSE INFORMATION

<b>Common Synonyms</b> Ethanethiol Ethyl sulphydrate Mercaptoethane Thioethyl alcohol	Liquid  Colorless to yellow  Strong skunk-like odor  Floats and mixes slowly with water. Poisonous, flammable vapor is produced. Boiling point is 95°F.
<b>Evacuate.</b> <b>KEEP PEOPLE AWAY. AVOID CONTACT WITH LIQUID AND VAPOR.</b> Avoid inhalation. Wear goggles and self-contained breathing apparatus. Shut off ignition sources. Call fire department. Stay upwind. Use water spray to "knock down" vapor. Notify local health and pollution control agencies. Protect water intakes.	
<b>Fire</b>	FLAMMABLE. POISONOUS GASES ARE PRODUCED IN FIRE. Containers may explode in fire. Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area. Extinguish with dry chemicals, foam or carbon dioxide. Water may be ineffective on fire. Cool exposed containers with water.
<b>Exposure</b>	CALL FOR MEDICAL AID.  VAPOR POISONOUS IF INHALED. Move victim to fresh air. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen.  LIQUID POISONOUS IF SWALLOWED. IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk and have victim induce vomiting. IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.
<b>Water Pollution</b>	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes. Notify local health and wildlife officials. Notify operators of nearby water intakes.

# ETHYLENE OXIDE

EOX

## CAUTIONARY RESPONSE INFORMATION

<b>Common Synonyms</b> 1,2-Epoxyethane Oxirane	Liquefied gas	Colorless	Sweet odor
Floats and mixes with water. Flammable, irritating vapor is produced. Boiling point is 51°F.			
Evacuate. Keep people away. Avoid contact with liquid. Avoid inhalation. Wear goggles, self-contained breathing apparatus, and rubber overclothing (including gloves). Shut off ignition sources and call fire department. Stay upwind and use water spray to "knock down" vapor. Notify local health and pollution control agencies. Protect water intakes.			
<b>Fire</b>	FLAMMABLE. Containers may explode when heated. Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area. Wear goggles, self-contained breathing apparatus, and rubber overclothing (including gloves). Stop flow of gas if possible. Combat fires from behind barrier, with unmanned hose holder or monitor noz. Flood discharge area with water. Cool exposed containers and protect men effecting shut off with water. Extinguish with alcohol foam, dry chemical, or carbon dioxide.		
<b>Exposure</b>	CALL FOR MEDICAL AID. Irritating to eyes, nose and throat. If inhaled, will cause nausea, vomiting and difficult breathing. Move to fresh air. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen.  LIQUID Will burn skin and eyes. Harmful if swallowed. Remove contaminated clothing and shoes. Flush affected areas with plenty of water. IF IN EYES, hold eyelids open, and flush with plenty of water. IF SWALLOWED, and victim is CONSCIOUS, have victim drink water or milk.		
<b>Water Pollution</b>	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes. Notify local health and wildlife officials. Notify operators of nearby water intakes.

## CAUTIONARY RESPONSE INFORMATION

<b>Common Synonyms</b> 1-Chloro-2,3-epoxypropane Chloromethyloxirane 3-Chloro-1, 2-propylene oxide gamma-Chloropropylene oxide	Watery liquid      Colorless      Sweet garlic odor  Sinks and mixes with water. Poisonous, flammable vapor is produced.
<b>Keep people away. AVOID CONTACT WITH LIQUID AND VAPOR.</b> Avoid inhalation. Wear goggles, self-contained breathing apparatus, and rubber overclothing (including gloves). Call fire department. Stay upwind and use water spray to "knock down" vapor. Notify local health and pollution control agencies. Protect water intakes.	
<b>Fire</b>	Combustible. POISONOUS GASES ARE PRODUCED IN FIRE. Vapor may explode if ignited in an enclosed area. Wear goggles, self-contained breathing apparatus, and rubber overclothing (including gloves). Combat fires from safe distance or protected location. Extinguish with water, dry chemical, alcohol foam or carbon dioxide. Cool exposed containers with water.
<b>Exposure</b>	CALL FOR MEDICAL AID.  VAPOR POISONOUS IF INHALED. Irritating to eyes. Move to fresh air. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen.  LIQUID POISONOUS IF SWALLOWED. Will burn skin and eyes. Remove contaminated clothing and shoes. Flush affected areas with plenty of water. IF IN EYES, hold eyelids open and flush with plenty of water. IF SWALLOWED and victim is CONSCIOUS, have victim drink or milk, and have victim induce vomiting. IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.
<b>Water Pollution</b>	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes. Notify local health and wildlife officials. Notify operators of nearby water intakes.

 3.2 **Symptoms Following Exposure:** Inhalation of vapor causes pulmonary and eye irritation; effects on lungs may be delayed 24 hours; very similar to phosgene poisoning. Contact with liquid causes painful irritation of eyes and lachrymation; also causes severe irritation and possible damage to skin. Ingestion causes severe irritation of mouth and stomach.  
 3.3 **Treatment of Exposure:** INHALATION: remove victim from exposure; oxygen can be used for pulmonary symptoms with decongestants; enforce complete rest, because effects may be delayed 24 hours; similar to phosgene poisoning. EYES: flush thoroughly with water and seek medical attention; apply Pontocaine drops (1/2%) and cortisone ointment (1%). SKIN: wash thoroughly with soap and water. INGESTION: give large amounts of water; induce vomiting; get medical attention; enforce rest for 24-36 hours.

## CAUTIONARY RESPONSE INFORMATION

<b>Common Synonyms</b> Acetic ester Acetic ether Acetic acid, ethyl ester Ethyl ethanoate Vinegar naphtha	Watery liquid      Colorless      Pleasant fruity odor  Floats on water. Flammable, irritating vapor is produced.
Keep people away. Avoid inhalation. Shut off ignition sources and call fire department. Stay upwind and use water spray to "knock down" vapor. Avoid contact with liquid and vapor. Notify local health and pollution control agencies. Protect water intakes.	
<b>Fire</b>	<b>FLAMMABLE.</b> Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area. Extinguish with dry chemical, alcohol foam, or carbon dioxide. Water may be ineffective on fire. Cool exposed containers with water.
<b>Exposure</b>	<b>CALL FOR MEDICAL AID.</b>  <b>VAPOR</b> Irritating to eyes, nose and throat. If inhaled will cause headache, dizziness, nausea, or loss of consciousness. Move to fresh air. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen.  <b>LIQUID</b> Irritating to skin and eyes. Harmful if swallowed. Remove contaminated clothing and shoes. Flush affected areas with plenty of water. IF IN EYES, hold eyelids open and flush with plenty of water. IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
<b>Water Pollution</b>	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes. Notify local health and wildlife officials. Notify operators of nearby water intakes.

## CAUTIONARY RESPONSE INFORMATION

<b>Common Synonyms</b> 1-Ethyl-2-methylbenzene o-Ethylmethylbenzene o-Ethyltoluene o-Methylethylbenzene	Watery liquid  Colorless  Pleasant odor  Floats on water. Flammable, irritating vapor is produced.
<b>Keep people away.</b> <b>Shut off ignition sources and call fire department.</b> <b>Avoid contact with liquid and vapor.</b> <b>Avoid inhalation.</b> <b>Stay upwind and use water spray to "knock down" vapor.</b> <b>Notify local health and pollution control agencies.</b> <b>Protect water intakes.</b>	
<b>Fire</b>	COMBUSTIBLE. Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area. Water may be ineffective on fire. Wear goggles and self contained breathing apparatus. Extinguish with dry chemical, foam, or carbon dioxide. Cool exposed containers with water.
<b>Exposure</b>	CALL FOR MEDICAL AID.  VAPOR Irritating to eyes, nose and throat. If inhaled, will cause nausea, vomiting, headache, dizziness, difficult breathing, or loss of consciousness. Move to fresh air. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen.  LIQUID Irritating to skin and eyes. If swallowed will cause nausea, vomiting or loss of consciousness. Remove contaminated clothing and shoes. Flush affected areas with plenty of water. IF IN EYES, hold eyelids open and flush with plenty of water. IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk. DO NOT INDUCE VOMITING.
<b>Water Pollution</b>	Dangerous to aquatic life in high concentrations. Fouling to shoreline. May be dangerous if it enters water intakes. Notify local health and wildlife officials. Notify operators of nearby water intakes.

## CAUTIONARY RESPONSE INFORMATION

<b>Common Synonyms</b> Azirane Aziridine		Oily liquid Colorless Ammonia odor
Floats and mixes with water. Poisonous, flammable vapor is produced.		
Evacuate. Keep people away. <b>AVOID CONTACT WITH LIQUID AND VAPOR.</b> Avoid inhalation. Wear goggles, self-contained breathing apparatus, and rubber overclothing (including gloves). Shut off ignition sources and call fire department. Stay upwind and use water spray to "knock down" vapor. Notify local health and pollution control agencies. Protect water intakes.		
<b>Fire</b>	<b>FLAMMABLE.</b> Containers may explode when heated. Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area. Wear goggles, self-contained breathing apparatus, and rubber overclothing (including gloves). Combat fires from behind barrier. Extinguish with dry chemical, alcohol foam, or carbon dioxide. Water may be ineffective on fire. Cool exposed containers with water.	
<b>Exposure</b>	<b>CALL FOR MEDICAL AID.</b> <b>VAPOR</b> <b>POISONOUS IF INHALED OR IF SKIN IS EXPOSED.</b> Irritating to eyes. Move to fresh air. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen. <b>LIQUID</b> <b>POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED.</b> Will burn eyes. Remove contaminated clothing and shoes. Flush affected areas with plenty of water. IF IN EYES, hold eyelids open and flush with plenty of water. IF SWALLOWED, and victim is CONSCIOUS, have victim drink water or milk.	
<b>Water Pollution</b>	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes. Notify local health and wildlife officials. Notify operators of nearby water intakes.

### 3. HEALTH HAZARDS

- 3.1 **Personal Protective Equipment:** If exposure is possible, wear full protective clothing (neoprene slicker suit, rubber boots, rubber gloves, chemical goggles). If vapors may be present, wear all-purpose canister or gas mask; if vapors are known to be present, use self-contained breathing apparatus.
- 3.2 **Symptoms Following Exposure:** Material gives inadequate warning of overexposure by respiration or skin contact. May cause nausea, vomiting, and possibly death when inhaled, ingested, or absorbed through skin. Severe blistering agent; can produce third-degree chemical burns of skin. Has corrosive effect on mucous membranes and may cause scarring of esophagus if swallowed. Corrosive to eye tissue; may cause permanent corneal opacity and conjunctival scarring. Effects on eye tissue, mucous membrane, and skin may be delayed.
- 3.3 **Treatment of Exposure:** INHALATION: remove victim from exposure and administer oxygen; steroid therapy (by physician) is recommended. SKIN OR EYES: prompt and adequate irrigation with water (within 60 seconds of exposure) can prevent serious injury.

## CAUTIONARY RESPONSE INFORMATION

<b>Common Synonyms</b> Ethyl 2-methacrylate Ethyl methacrylate-inhibited Ethyl alpha-methylmethacrylate Ethyl 2-methyl-2-propenoate Methacrylic acid, ethyl ester	Liquid  Colorless  Sharp unpleasant odor  Floats on water.
Keep people away. Avoid contact with liquid and vapor. Avoid inhalation. Shut off ignition sources. Call fire department. Stay upwind. Use water spray to "knock down" vapor. Notify local health and pollution control agencies. Protect water intakes.	
<b>Fire</b>	FLAMMABLE: Containers may explode in fire. Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area. Extinguish with dry chemicals, foam or carbon dioxide. Water may be ineffective on fire. Cool exposed containers with water.
<b>Exposure</b>	CALL FOR MEDICAL AID.  VAPOR Irritating to eyes, nose and throat. If inhaled will cause coughing or difficult breathing. If in eyes, hold eyelids open and flush with plenty of water. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen.  LIQUID Irritating to skin and eyes. If swallowed will cause nausea and vomiting. Remove contaminated clothing and shoes. Flush affected areas with plenty of water. IF IN EYES, hold eyelids open and flush with plenty of water. IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk and have victim induce vomiting. IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.
<b>Water Pollution</b>	Effect of low concentration on aquatic life is unknown. Fouling to shoreline. May be dangerous if it enters water intakes. Notify local health and wildlife officials. Notify operators of nearby water intakes.

## CAUTIONARY RESPONSE INFORMATION

Common Synonyms	Liquefied gas Clear to yellow Very irritating odor  Liquid sinks and boils in water. Poisonous visible vapor cloud is produced.
<p><b>KEEP PEOPLE AWAY. AVOID CONTACT WITH LIQUID AND VAPOR.</b>                      Avoid inhalation.                      Wear chemical protective suit.                      Evacuate area in case of large discharge.                      Notify local health and pollution control agencies.                      Protect water intakes.</p>	
Fire	Not flammable. WILL CAUSE FIRE AND REACT VIOLENTLY WITH COMBUSTIBLES. POISONOUS GAS IS PRODUCED IN FIRE. Wear chemical protective suit with self-contained breathing apparatus. Combat fires from behind barrier, with unmanned hose holder or monitor nozzle. Cool exposed containers with water.
Exposure	CALL FOR MEDICAL AID.  VAPOR POISONOUS IF INHALED. Irritating to eyes. Move to fresh air. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen.  LIQUID Will burn skin and eyes. Will cause frostbite. Flush affected areas with plenty of water. IF IN EYES, hold eyelids open and flush with plenty of water. DO NOT RUB AFFECTED AREAS.
Water Pollution	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS. May be dangerous if it enters water intakes. Notify local health and wildlife officials. Notify operators of nearby water intakes.

## CAUTIONARY RESPONSE INFORMATION

<b>Common Synonyms</b> Glycidyl alpha-methyl acrylate Methacrylic acid, 2, 3-epoxypropyl ester	Liquid	Colorless	Fruity odor
Floats on water.			
Keep people away. Avoid contact with liquid. Wear rubber overclothing (including gloves). Call fire department. Notify local health and pollution control agencies. Protect water intakes.			
<b>Fire</b>	Combustible. Wear goggles, self-contained breathing apparatus, and rubber overclothing (including gloves). Extinguish with foam, dry chemical, or carbon dioxide. Water may be ineffective on fire.		
<b>Exposure</b>	CALL FOR MEDICAL AID.  LIQUID Will burn skin and eyes. Harmful if swallowed. Remove contaminated clothing and shoes. Flush affected areas with plenty of water. IF IN EYES, hold eyelids open and flush with plenty of water. IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.		
<b>Water Pollution</b>	Effect of low concentrations on aquatic life is unknown. Fouling to shoreline. May be dangerous if it enters water intakes. Notify local health and wildlife officials. Notify operators of nearby water intakes.

# GASOLINES: CASINGHEAD

GCS

## CAUTIONARY RESPONSE INFORMATION

<b>Common Synonyms</b> Natural gasoline	Watery liquid  Colorless  Gasoline odor  Floats on water. Flammable, irritating vapor is produced.
Evacuate. Keep people away. Wear chemical protective suit with self-contained breathing apparatus. Shut off ignition sources and call fire department. Stay upwind and use water spray to "knock down" vapor. Notify local health and pollution control agencies. Protect water intakes.	
<b>Fire</b>	FLAMMABLE. Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area. Extinguish with dry chemical, foam or carbon dioxide. Water may be ineffective on fire. Cool exposed containers with water.
<b>Exposure</b>	CALL FOR MEDICAL AID.  VAPOR Irritating to eyes, nose and throat. If inhaled will cause dizziness, headache, difficult breathing or loss of consciousness. Move to fresh air. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen.  LIQUID Irritating to skin and eyes. If swallowed, will cause nausea or vomiting. Flush affected areas with plenty of water. IF IN EYES, hold eyelids open and flush with plenty of water. IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk. DO NOT INDUCE VOMITING.
<b>Water Pollution</b>	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS. Fouling to shoreline. May be dangerous if it enters water intakes. Notify local health and wildlife officials. Notify operators of nearby water intakes.

### 3. HEALTH HAZARDS

- 3.1 **Personal Protective Equipment:** Protective goggles, gloves.  
3.2 **Symptoms Following Exposure:** INHALATION causes irritation of upper respiratory tract; central nervous system stimulation followed by depression of varying degrees ranging from dizziness, headache, and incoordination to anesthesia, coma, and respiratory arrest; irregular heartbeat is dangerous complication. ASPIRATION causes severe lung irritation with coughing, gagging, dyspnea, substernal distress, and rapidly developing pulmonary edema; later, signs of bronchopneumonia and pneumonitis, acute onset of central nervous system excitement followed by depression. INGESTION causes irritation of mucous membranes of throat, esophagus, and stomach; stimulation followed by depression of central nervous system; irregular heartbeat.  
3.3 **Treatment of Exposure:** Seek medical attention. INHALATION: maintain respiration; give oxygen if needed. ASPIRATION: enforce bed rest; administer oxygen. ## CAUTIONARY RESPONSE INFORMATION

### Common Synonyms

Watery liquid

Colorless

Gasoline odor

Floats on water. Flammable, irritating vapor is produced.

Evacuate.  
Keep people away.  
Avoid contact with liquid and vapor.  
Shut off ignition sources and call fire department.  
Stay upwind and use water spray to "knock down" vapor.  
Notify local health and pollution control agencies.  
Protect water intakes.

### Fire

FLAMMABLE.  
Flashback along vapor trail may occur.  
Vapor may explode if ignited in an enclosed area.  
Extinguish with dry chemical, foam, or carbon dioxide.  
Water may be ineffective on fire.  
Cool exposed containers with water.

### Exposure

CALL FOR MEDICAL AID.

VAPOR  
Irritating to eyes, nose and throat.  
If inhaled, will cause dizziness, headaches, difficult breathing or loss of consciousness.  
Move to fresh air.  
If breathing has stopped, give artificial respiration.  
If breathing is difficult, give oxygen.

LIQUID  
Irritating to skin and eyes.  
If swallowed, will cause nausea or vomiting.  
Remove contaminated clothing and shoes.  
Flush affected areas with plenty of water.  
IF IN EYES, hold eyelids open and flush with plenty of water.  
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.

## CAUTIONARY RESPONSE INFORMATION

<b>Common Synonyms</b>	Watery liquid      Colorless      Gasoline odor  Floats on water. Flammable, irritating vapor is produced.
	Evacuate. Keep people away. Avoid contact with liquid and vapor. Shut off ignition sources and call fire department. Stay upwind and use water spray to "knock down" vapor. Notify local health and pollution control agencies. Protect water intakes.
<b>Fire</b>	FLAMMABLE. Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area.
<b>Exposure</b>	VAPOR Irritating to eyes, nose and throat. If inhaled, will cause dizziness, headache, difficult breathing or loss of consciousness.  LIQUID Irritating to skin and eyes. If swallowed, will cause nausea or vomiting.
<b>Water Pollution</b>	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS. Fouling to shoreline. May be dangerous if it enters water intakes.

## CAUTIONARY RESPONSE INFORMATION

<b>Common Synonyms</b> Hydrocyanic acid Prussic acid	Watery liquid, or gas    Colorless    Bitter almond odor  Sinks and mixes with water. Poisonous, flammable vapor is produced and rises. Boiling point is 78°F.
<b>KEEP PEOPLE AWAY. AVOID CONTACT WITH LIQUID AND VAPOR. WEAR CHEMICAL PROTECTIVE SUIT WITH SELF-CONTAINED BREATHING APPARATUS.</b> Shut off ignition sources and call fire department. Evacuate area. Stay upwind and use water spray to "knock down" vapor. Notify local health and pollution control agencies. Protect water intakes.	
<b>Fire</b>	FLAMMABLE. Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area. WEAR CHEMICAL PROTECTIVE SUIT WITH SELF-CONTAINED BREATHING APPARATUS. Stop discharge if possible. Cool exposed containers and protect men effecting shutoff with water. Let fire burn.
<b>Exposure</b>	CALL FOR MEDICAL AID.  VAPOR POISONOUS IF INHALED OR IF SKIN IS EXPOSED. Irritating to eyes. Move to fresh air. If breathing has stopped, give artificial respiration (but NOT mouth to mouth). If breathing is difficult, give oxygen.  LIQUID POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED. Irritating to eyes. Remove contaminated clothing and shoes. Flush affected areas with plenty of water. IF IN EYES, hold eyelids open and flush with plenty of water. IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk and have victim induce vomiting. IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.
<b>Water Pollution</b>	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS. May be dangerous if it enters water intakes. Notify local health and wildlife officials. Notify operators of nearby water intakes.

<b>3. HEALTH HAZARDS</b>  3.1 <b>Personal Protective Equipment:</b> CAUTION-Class A poison; asphyxiation can be caused by ingestion, inhalation, or absorption of liquid or vapor through skin (particularly eyes, mucous membranes, and feet). Escape purposes only-air escape mask with 5-minute air cylinder. Work purposes-vapor-proof emergency suit or vinyl-coated coverall, plus air mask with clear-view facepiece, speaking diaphragm, demand regulator, and 30-minute air cylinder. Rubber gloves; chemical safety goggles; quick-opening safety shower.  3.2 <b>Symptoms Following Exposure:</b> Irritation of throat, palpitation, difficult breathing, reddening of eyes, salivation, nausea, headache, weakness of arms and legs, giddiness-followed by collapse and convulsions.  3.3 <b>Treatment of Exposure:</b> Call a doctor. If breathing has stopped, give artificial respiration until doctor arrives. INHALATION: remove patient to fresh air. SKIN CONTACT: remove contaminated clothing and wash skin thoroughly with copious quantities of water and soap. EYE CONTACT: hold eyelids apart and wash eye with continuous gentle stream of water for at least 15 min. If patient is unconscious, administer amyl nitrite by crushing a pearl (ampule) in a cloth and holding this under patient's nose for 15 seconds in every minute. <b>Keep people away. Avoid contact with solid and dust. Wear chemical protective suit with self-contained breathing apparatus. Shut off ignition sources. Call fire department. Notify local health and pollution control agencies. Protect water intakes.</b>	
<b>Fire</b>	Combustible. Dust cloud may explode if ignited in an enclosed area. Extinguish with water, dry chemicals, foam, or carbon dioxide.
<b>Exposure</b>	CALL FOR MEDICAL AID. DUST Irritating to eyes, nose and throat. Harmful if inhaled. If in eyes, hold eyelids open and flush with plenty of water. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen.  SOLID Will burn eyes. Irritating to eyes. If swallowed will cause headache, dizziness, nausea, vomiting, or loss of consciousness. Remove contaminated clothing and shoes. Flush affected areas with plenty of water. IF IN EYES, hold eyelids open and flush with plenty of water. IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk and have victim induce vomiting. IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.

## CAUTIONARY RESPONSE INFORMATION

<b>Common Synonyms</b>	Watery liquid      Colorless      Ammonia odor  Mixes with water. Poisonous, flammable vapor is produced. Freezing point is 35°F.
Evacuate. Keep people away. <b>AVOID CONTACT WITH LIQUID AND VAPOR.</b> Wear chemical protective suit with self-contained breathing apparatus. Shut off ignition sources. Call fire department. Stay upwind and use water spray to "knock down" vapor. Notify local health and pollution control agencies. Protect water intakes.	
<b>Fire</b>	<b>FLAMMABLE</b> Flashback along vapor trail may occur. Vapor may explode if ignited in an enclosed area. Wear chemical protective suit with self-contained breathing apparatus. Combat fires from safe distance or protected location. Flood discharge area with water. Extinguish with dry chemical, alcohol foam, or carbon dioxide. Cool exposed containers with water. Continue cooling after fire has been extinguished.
<b>Exposure</b>	CALL FOR MEDICAL AID.  VAPOR POISONOUS IF INHALED OR IF SKIN IS EXPOSED. Irritating to eyes. Move to fresh air. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen.  LIQUID POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED. Will burn eyes. Remove contaminated clothing and shoes. Flush affected areas with plenty of water. IF IN EYES, hold eyelids open and flush with plenty of water. IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk. DO NOT INDUCE VOMITING.
<b>Water Pollution</b>	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS. May be dangerous if it enters water intakes. Notify local health and wildlife officials. Notify operators of nearby water intakes.
